Precipitation probability							
10%	10%	10%	40%	40%	20%	20%	40%

Forecast for Tuesday 26 Oct 2021

Weather: Mainly dry overnight but with increasing cloud by dawn. Light rain initially will spread east by mid morning. Rain will clear east by early afternoon but it will stay quite dull with a few drizzly outbreaks on the hill tops. Mainly dry at low level during the afternoon and evening. Perhaps some further light rain during the evening.

Chance of cloud free mountain/hill tops above 600m: 40%, low cloud associated with morning rainfall increasing to 70% during the afternoon, more chance of cloud breaks in the east.

Visibility: Visibility will be quite poor at times during the morning in rainfall and low cloud. Cloud bases likely to be broken in the west from 400m but will improve to scattered above 500m to give some views under the low cloud during the afternoon, better visibility is likely for the eastern side of the Brecon Beacons.
